

Register today to get certified

Employability.life and its team is available to support you on your campus. Our programme is run by our global network of master coaches digitally, and locally. Your experience with Employability.life is managed within an **ISO 9001 certified Quality Management framework**.

On your campus, full-time support will be provided to you through our **Employability.life centre coordinators**. They will also run weekly **Employability.life hours**: structured support sessions to help with projects and provide space for you and your peers to collaborate. **Visit our website www.employability.life and register for the Employability.life programme today!** You will receive a **certification** for each module completion and when finishing all five you will get a certificate from the United Kingdom's Institute of Leadership and Management (ILM).

Meet us on campus or online

While you finish up the Employability.life programme, our coaches and mentors will help you in sessions to **write great CVs, meaningful cover letters, update your LinkedIn profile, and build your interviewing and professional skills** to give you the best chance at starting your career ambitions.

We partner with large corporations looking to recruit at scale. **We are here to set you up for success.** Let's start preparing for your career right now. Meet us in person at the **Employability.life centre on your campus or during our online sessions.** We are looking forward to exploring your career options with you!

*Now is the best time
to invest in yourself!*

What are you
doing **now**
to **prepare** for
your **career**?

Start your journey to success!

Entering the workforce can be a stressful endeavour for many students. Most of us don't even have **a clear picture of how to progress to what we want to achieve after university**, and it is often difficult to find somebody to help us with our career plan before or even after graduation. These days, despite what your older relatives or friends might tell you, **getting a job is a lot harder than just walking in, asking politely, and handing in a CV.**

Employers today expect applicants to hand in a well-written, fleshed out CV, a cover letter, links to websites and social media – some even require aptitude and cognitive tests, and that's just the beginning. Some positions have multiple rounds of interviews and tasks that applicants are expected to undertake to just even be considered for a position. **It's a lot to go through all by yourself.**

That's where we come in: **Employability.life** wants to help you get to achieve the things you are dreaming about. We don't want to just get you the first job – we

want to get you set up and **jump-start the career that you want to be in.** We want you to aim higher and aspire. We differ from regular career services because we go above and beyond the typical tips and tricks of getting a CV through: **we want to materialise your full career potential and ambitions.**

*"If you can dream it,
you can do it."* Walt Disney

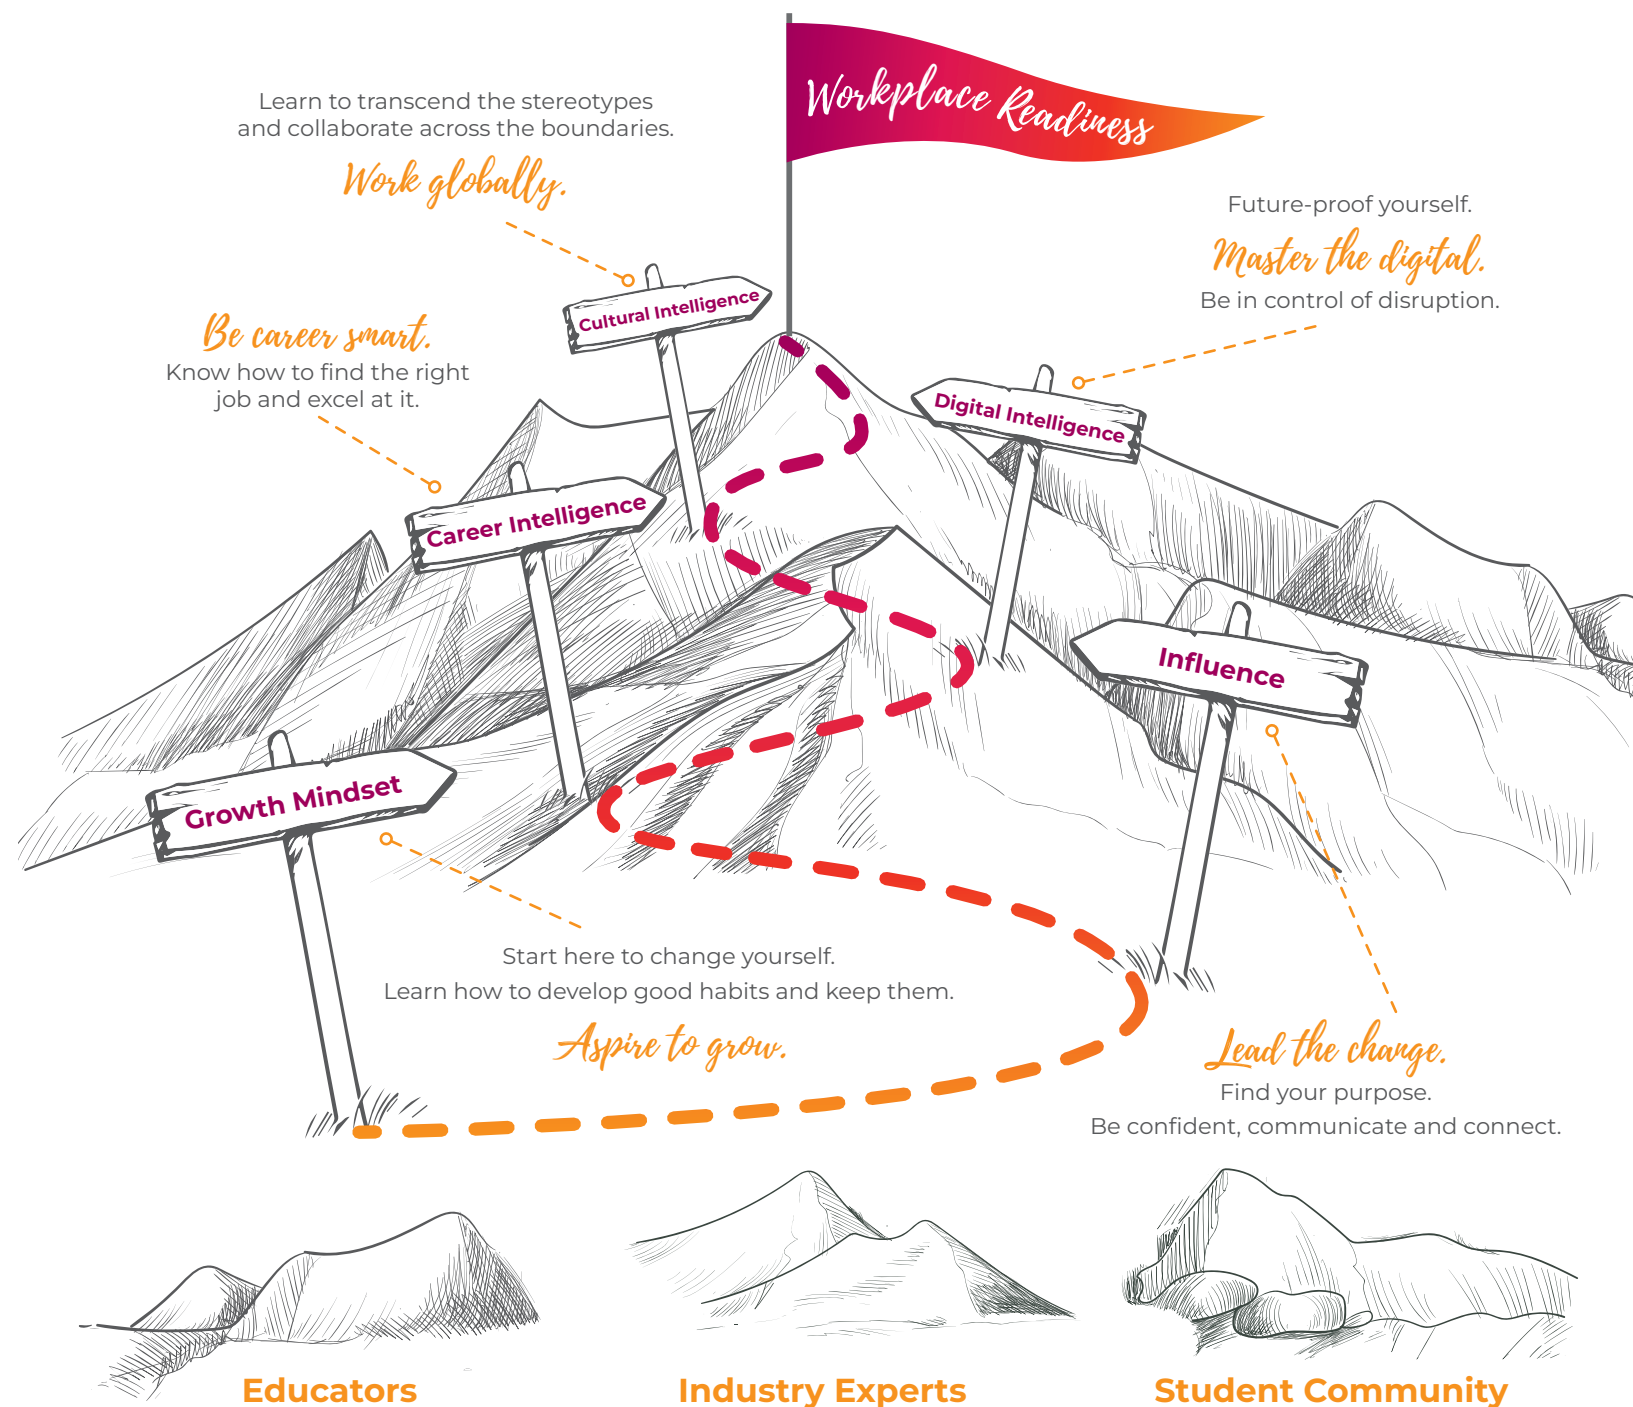

We focus on preparing you for **career progression**. Through online learning, projects, targeted counselling, and industry mentoring, we prepare you for global and digital career success.

By entering our 12-week programme, you can expect to become a **future-proofed, adaptable, and irreplaceable professional** ready to take charge and succeed in your local as well as international job market.

Your Journey with Employability.life

The **Employability.life** programme starts with you. To apply, we ask you to start by **filling out a form** where we inquire about your employment status, **your most desired job**, and **three places you'd most like to work at**.

Once we've received your application, potential candidates will undergo an assessment process that includes a **psychometrics, function skills test, and a structured interview** — don't worry, we don't reject anyone! What we expect is your effort and persistence. We use all of this to establish your **initial Workplace Readiness Score (i-WRS)** so we can design the training and support to take you successfully throughout the programme.

We are here to support you!

The Employability.life experience will help you focus on developmental activities to practice a **Growth Mindset**, build your **Career, Digital, and Cultural intelligences**, and hone your **Influence**. You can expect to meet with our **Master Coaches**, learn to develop your network with our industry professionals, and collaborate on projects with peers.

Marketa Mojzisova: Programme manager

Experienced in corporate & startup environments, Marketa has worked in different educational initiatives such as EdTech and E2E solutions in the US, UK, Canada, Malaysia and now Australia. She designs, coaches and leads education programmes. She also has experience in business development and marketing hoping to share her skills with you. Marketa's goal is to **help you design a successful career. Feel free to reach out to her any time! She will always point you to the right direction.**

Sharmistha Chatterjee: Master Coach on Career Intelligence

With 20+ years of experience in business operations and HR across various industry sectors and geographies, Sharmistha is a certified career guidance coach. She will help you to understand **what motivates you, set your career goals, start a job search, prepare for an interview, and much more. What else comes to your mind when looking for a job? We will make sure we got you covered.**

Desta Haile: Master Coach on Cultural Intelligence

Desta is a multilingual consultant with over 15 years of experience in intercultural training and creative education. She is an award-winning writer with a focus on intercultural communication, and the Deputy Director of the Royal African Society. **Do you know what a stereotype is? What does it mean to be on time?** Desta will guide you through the nuances of a **better understanding of different cultures, how to work locally and succeed internationally.**

Ashok Selladurai: Master Coach on Digital Intelligence

An IT leader responsible for implementing, leading and delivering IT support, management and consultancy services in the UK, India and Sri Lanka for the past 20+ years, Ashok worked in both global multinationals and small-medium business environments. He will share with you how to **develop the digital skills that are in high demand in nearly every 21st-century workplace: how do you use digital tools effectively? How can you find a balance with your devices to avoid distractions?**

Ana Vreca: Master Coach on Growth Mindset

Ana has a background in HR, recruiting and building top talent teams to help connect people. She holds a certificate as a life & executive coach and has founded her own company in Canada. She has worked with both students and professionals alike. She will start by **helping you understand the difference between a 'fixed mindset' and a 'growth mindset': to embrace challenges, be resilient, learn, and realise you can grow skills and intelligence.**

Melvin Tan: Master Coach on Influence

A consultant with experience in talent acquisition and development, Melvin set his HR company to provide IT tech talents, marketing, accounting/finance across all fields and industries from junior executives to senior C-level roles. Melvin will show you how to best **imagine yourself in your future career, use your social skills to build a powerful network of collaborators to help you grow your influence in your areas of interest.**
